RUSSIA TO REMAIN

The Officials Treat the Question of the Evacuation of Manchuria as a Joke.

NO ORDERS GIVEN TO WITHDRAW

Troops, Headed by a Band Playing the National Airs, Paraded Principal Streets of New Chwang.

The Assistant to the Civil Administrator, M. Grosse, Freely Asserted That a Permanent Occupation of the Country is Intended.

New Chwang, Manchuria, Oct. 10.—The troops of the Russian garrison, headed by their band, playing national airs, paraded the principal streets of the foreign and Chinese settlements Friday, ostensibly as though to emphasize the fact that the Russians are still governors of this port. The civil administrator, M. Grosse, Friday stated that he had received no instructions regarding withdrawal. His assistants freely assert that a permanent occupation is intended. In speaking with a consul who called Friday to inquire regarding Russia's intentions, the officials treated the question of evacuation as a joke.

The Chinese toatal of New Chwang recently returned and tried to arrange the transfer of government but without success.

The Russian administrator requested him to leave, which he did.

A Russian general, who went home on leave, expecting to remain in Russia, has rented a house for the winter and will return with his family.

The Russian government is obtaining much valuable real estate from the Chinese guilds at ridiculous cheap prices by official pressure. All events support the predictions that Russia intends to remain here.

The situation naturally offers opportunities for constant friction between the consuls and Russian officials. The foreign residents under the treaties with China are subject only to the laws of their governments administered by their consuls. If Russian sovereignty be recognized the foreigners will lose their extra territorial rights to become controlled by Russian laws, the prospect of which causes great dissatisfaction.

The leading Russian newspaper at Port Arthur, which is regarded as the viceroy's organ, and at any rate is under so strict a censorship that it can not antagonize his policy, challenges Japan to contest Russia's supremacy in Manchuria.

Must Get Out of Manchuria or Fight.

Che Fu, China, Oct. 10.—Rumors are current here that Japan has sent an ultimatum to Russia on the subject of the evacuation of Manchuria, the ultimatum expiring two or three days hence.

Peking, Oct. 10.—The announcement was made in official circles Friday that Japan had instructed Russia that she must get out of Manchuria or fight.

New York, Oct. 10.—A special cable from Chefoo, Friday, says the Russian fleet left Port Arthur Thursday with sealed orders. Its destination is supposed to be Korea. It is at present rumored that the Japanese are landing men there.

CLAIMS AGAINST VENEZUELA.

The Agent of the United States Makes a Verbal Report.

Washington, Oct. 10.—Robert C. Morris, agent for the United States in claims against Venezuela, made a verbal report to the state department Friday. A number of the claims of United States citizens have been settled, but some of the most important cases are yet pending. So far as settlement has been made Mr. Morris seems satisfied. He reported, however, that all foreigners representing claimants in Venezuela have been subjected to general abuse and criticism by the papers of that country which seem inspired to make it unpleasant for the agents, atorneys and umpires.

THE LEXINGTON RACES.

Dan R Made a New World's Record For Pacers.

Lexington, Ky., Oct. 10.—Six thousand people braved the biting west wind Friday to see Casplan, an Ohio horse, and second favorite in the betting, win the 15th Transylvania, \$6,000. The best time made was 2:09½. Hawthorne, the favorite in Thursday night's pooling, made a poor showing. He made only one strong bid for the race. He had the second heat won until he reached the head of the stretch and broke, finishing bad.

Casplan is the horse which, it has been said, that can not go more than two heats, but he went three Friday and won the first and third with ease. Kent, the horse which took the second money, was purchased from Dick Dehley, of Wichita, Kan., by E. E. Smathers for \$4,300.

The feature of the day outside of the record made by Dan R for a pacer, a mile to a wagon. There were but two entries for the free-for-all pace for amateur drivers, C. K. G. Billings, of Cleveland, drove Greenland, 2:07½, and H. K. Devereaux, of Cleveland, drove the chestnut gelding Dan R, 2:01½.

Dan R broke before reaching the quarter pole and Greenline forged ahead a hundred yards. At the quarter stretch Dan R made up a good distance, but was still trailing three lengths behind and came down the stretch with the wind at his back at a two minute gait. A hundred yards from the wire and he had caught Greenline and in a driving finish beat him out by a neck, going the last quarter in 29½ seconds. In the next heat Dan R went the mile in 2:04½, beating his competitor by several lengths.

MURDER OR SUICIDE.

Frankfort, Ky., Oct. 10.—E. F. Thompson, a farmer, aged 52 years, was found hanging in his barn Friday. When found life had been extinct for several hours. The dead man's hands were tied behind him. Belief in the neighborhood is that it is a case of suicide, as Thompson was in bad health.

TORRENTIAL RAIN.

Unprecedented Precipitation of 10.04 Inches Recorded at New York Weather Bureau.

CITY AND COUNTRY UNDER FLOOD

It Caused Damage to Property That Will Amount to Many Hundred Thousands of Dollars.

Reports of Serious Damage From High Water Comes From Almost All Sections of New Jersey and Long Island.

New York, Oct. 10.—Torrential rain, commencing early Thursday morning and continuing with scarcely any intermission until late Friday afternoon, during which time the unprecedented precipitation of 10.04 inches was recorded at the local weather bureau, laid New York city and all the surrounding country under a flood Friday, causing damage that will amount to many hundred thousands of dollars. Friday night the rain had ceased, but a coast storm was reported to be approaching and a threatened hurricane renders it unsafe for vessels of any class to leave port.

Along all the river front and in many sections of Brooklyn cellars were flooded and an enormous amount of damage done. A great portion of the subway was badly flooded.

Suburban steam and trolley lines, with hardly an exception, were crippled by floods and washouts and in the early morning rush hours thousands of suburban residents were unable to reach their offices in this city. Those who were fortunate enough to cross the ferries found further progress blocked by the submerged condition of the water front streets, across which they were ferried in trucks and wagons.

Reports of extensive floods and serious damage to property and interruptions of traffic came from almost all sections of New Jersey and Long Island. In Newark, Passaic and other large manufacturing centers, many factories were closed down owing to the flooding of engine rooms. In many places electric lights and power plants were shut down for the same reason. A dam on the Ramapo river and Pompton broke, flooding the valley for ten miles, but causing no loss of life.

Patterson was one of the worst sufferers and for a time Friday afternoon there was grave danger of a repetition of the terrible disaster of last February. Friday night the flood was subsiding and all danger was believed to be over.

A great part of the city was laid under water and scores of great plants, including those of the Rogers locomotive works and the Passaic Steel Co., were flooded and shut down, involving a loss estimated at fully \$1,000,000.

Only one life was reported lost, that of a girl drowned by the carrying away of a bridge. Thousands of New Jersey commuters slept in New York Friday night, being unable to return to their homes.

John Brown, living at Crum Lynn, a short distance from this city, was drowned in the same manner. He was standing on the bank of Crum creek and was blown into the stream which was quite high.

The heavy rain storm which set in Thursday morning continued Friday night. During the last 36 hours three and one-tenth inches of rain have fallen. The storm is accompanied by a high wind, which reached a maximum of 36 miles an hour Friday afternoon.

Bates and his staff in the presence of a large crowd Friday. The twice deferred review of all the troops at Camp Young was a most brilliant event and practically brought to a close the combined maneuvers of the regulars and national guardsmen, which have been in progress for ten days.

All the national guards were paid off Friday. The average for each private without regard to states is about \$7.50 for the ten days work.

REVOLT IN PRISON.

Well Organized and Partially Successful Attempt at Delivery of Prisoners.

ONE OF THE CONVICTS WAS KILLED

One Guard Shot and Wounded, Another Terribly Beaten, Three Prisoners Wounded and Two Escape.

A Posse of Penitentiary Guards With Several Bloodhounds Was Promptly Started on the Trail of the Two Escaped Convicts.

Salt Lake, Utah, Oct. 10.—As a result of a well organized and partly successful attempt at a wholesale delivery of prisoners at the Utah state penitentiary Friday night, one prisoner was killed, one guard was shot and wounded, and another man was beaten almost into insensibility, and three prisoners were wounded and two others under death sentences escaped.

A posse of prison guards with several bloodhounds was promptly started on the trail of the two escaped convicts, but owing to darkness and the wild nature of the country in the immediate vicinity of the prison no results are looked for Friday night.

The outbreak occurred as the prisoners were being placed in their cells for the night by Guards Wilkins and Jacobs. Two of the prisoners overpowered Wilkins and Jacobs, the former being shot and slightly wounded and the latter frightfully beaten.

The convicts took the prison keys from the guards and released five other prisoners who had already been locked up. The seven prisoners then compelled Guard Wilkins, notwithstanding his injuries, to march at their head, and, with the assistance of ladders found near the workshop, they proceeded to scale the wall. Wilkins was made to ascend first. As the first convict reached the top Guard Naylor, who was on the south wall, opened fire. This was the signal for a general alarm, and several guards who were in the office quickly seized their guns and hastened to the scene.

Guard Driggs reached the wall just as Frank Dayton and Ed Mullan were descending on the outside. He ordered them to halt, but as they paid no attention to the command, he fired and killed Dayton. A second shot struck Mullan in the leg as he was coming down the ladder, and he dropped to the ground, his body falling over the corpse of Dayton. The other five convicts had succeeded in reaching the ground outside the wall when they were fired upon by other guards. Abe Majors was shot in the arm and fell to the ground, crying with pain. Nick Haworth was also shot and fell but quickly arose and continued his flight. Harry Waddell was shot in the leg. James Lynch escaped uninjured, it is believed. After running about 100 yards from the wall, Haworth dropped a rope made from blankets which was found stained with blood. At the foot of the wall were found several cartridges which the convicts dropped as they came over.

Two of the prisoners were armed with revolvers. Where they secured the weapons is not known.
